First Aid Kits		
This is where you create and identity each of the First Aid Kits you have in your business.		
Navigate to Administration/Injury Management/First Aid Kit, click +ADD NEW:		
1. Type in a unique Code or Name for each kit.		
2. Select the <u>Supplier</u> of this kit.		
3. Click +ADD ITEM.		
4. Select the item from the drop list (see notes).		
5. If required change the <u>Issue Date</u> .		
6. Type in the required quantity.		
7. If applicable enter an expiry date (see notes).		
Repeat steps 3 to 7 until you have all the items for this kit.		
9. When you re-open the First Aid Kit you will now be able to click [] COPY to create a duplicate kit with a new name.

NOTES:		
• You must add all your "First Aid Items" before setting up your "	First Aid Kits"	
Only add expiry dates for items that need them e.g. Burnaid Cream or Antisentic Spray. Notifications will be sent		
out for items that are due to expire or have expired.		
 In the <u>First Aid Kit Register</u> you can schedule reviews for each kit 	t. They are either assig	gned to an asset or location.
