

Legislative types are used in the [Work, Health & Safety Legislative Register](#) and refer to the documents which are directly responsible for your companies Work Health & Safety requirements.

We have added all of the current Acts, Regulations and Codes of Practice applicable to Australia, see notes below.

1. Use the filters or type in the search bar to narrow down the selection.
2. Also, you can use  to delete any items that don't apply to your state or business.
3. To download the current document click the [LINK](#) button.

Title	Description	Link	
NSW: Act: Work Health and Safety Act 2011	NSW-ACT: Work Health and Safety Act 2011	LINK	
NSW: Code of Practice: Abrasive blasting	NSW-COP: Abrasive blasting	LINK	
NSW: Code of Practice: Confined spaces	NSW-COP: Confined spaces	LINK	

4. Save the document locally and then upload into your [Work, Health & Safety Legislative Register](#).

NOTES:

- Depending on your field of work as to which legislative documents are applicable to your industry.
- Your Safe Work Method Statements should have a list of applicable Acts, Regulations, Standards and Code of practice which relate to your industry.
- If you are unsure of what legislative types are applicable to your industry, then please contact your Work, Health & Safety documentation provider to clarify.
- Otherwise contact Safe Work / Work Safe to obtain a list applicable to your industry.
- Please let us know if any of the links are broken or out of date at support@safetyminder.co
