

Here you will find all Safety Datasheets that have been loaded for:

- Plant & Equipment
- PPE Items
- Hazardous Substance

1. From the main menu select Documentation.
2. Select Safety Data Sheets.
3. Use the search bar to find the product you need.
4. Clicking on the item in the list will allow you to view any videos or documents loaded for this item.

The screenshot shows the mobile app interface. On the left is a user profile for 'Kermit Frog Nzdbtest'. Below the profile is a list of menu items: 'Emergency Numbers', 'Report Issues Suggestions &...', 'Job Docs' (with a red '1' badge), 'Documentation' (highlighted with a red box and a red '1' badge), and 'Registers' (with a red '2' badge). The 'Documentation' menu item is selected, leading to a 'Documentation' screen with a list of document categories: 'Business Registration Certificate', 'Customer Document', 'Equipment Manual Database', 'First Aid Treatments', 'Other Manuals', 'Plans', and 'Public liability/Professional indemnit...'. The 'Safety Data Sheet Database' item is highlighted with a red box and a red '2' badge. This leads to the 'Safety Data Sheet Database' screen, which has a search bar containing 'Eth' (with a red '3' badge) and a search icon. Below the search bar, a document titled 'Ethylene Glycol Ethylene Glycol SDS' with an 'Expire Date: 31 Mar 2030' is shown. A 'Choose Action' menu is open, with 'View Document' highlighted by a red '4' badge.

NOTES:

- If there are no files then please inform the office so they can be added via the [web app](#).
