

Here you can access Customer Documents that have loaded into the system in the web app under [Administration / Injury & Health Management / First Aid Treatment](#).

1. From the Main Menu select Documentation.
2. Select First Aid Treatments.
3. Type in the search bar to narrow down the selection.
4. Click on the item you wish to view.
5. Click to View Document or Video Link – click the link to see notes for viewing [PDF](#).
6. Click the X to clear the search box.

The screenshot displays the user interface for accessing First Aid Treatments. On the left, the user profile for Kermit Frog is shown. The main menu includes 'Emergency Numbers', 'Report Issues Suggestions &...', 'Job Docs', 'Documentation' (1), and 'Registers'. The 'Documentation' section lists various document types, with 'First Aid Treatments' (2) selected. The 'First Aid Treatments' screen shows a search bar with 'Fra' (3) and a search result for 'Fractures and dislocation' (4). The search result text is partially visible: 'It can be difficult to tell whether an injury is fracture, dislo...'. An action menu is open, showing 'View Document Link' (5) and 'View Video Link'. A red '6' is also present near the search bar.
